

## HOW TO KEEP PACE

### TIME SAVING HINTS FOR PLAYING READY GOLF

#### ON THE TEE

1. The 1<sup>st</sup> player to hit should do so - **NO HONORS**
2. Other players should be ready to hit
3. All players should observe each others shot location
4. Move smartly to your next shot

#### ON THE GREEN

1. Place clubs nearest side of green to next tee
2. Plan your putt while waiting turn
3. Follow continuous putting rule until holed if able
4. Head to next tee and get prepared to tee, then do so

#### DON'T WASTE TIME

1. One practice swing is enough
2. Never record your score on or near the green
3. Always have an extra (provisional) ball on person
4. Plan your next shot as you walk to it, be ready and hit

#### OUR GOAL

Playing a round in 3 1/2 hrs, 2 for the front 1 1/2 back, this is possible if we police our group and not fall out of position. If we put to practice these tips, everyone will have an enjoyable day, unless of course, your game is off.
